

## Home Staging Using Portable Storage Containers

hi this is Gary with my way mobile  
00:04  
storage and I want to talk to you today  
00:06  
about the importance of decluttering and  
00:08  
home staging a home if you're thinking  
00:11  
about listing your home or maybe you've  
00:13  
actually listed your home but you're  
00:15  
really not getting those buys so those  
00:16  
offers that you really thought you may  
00:18  
want to consider decluttering your home  
00:21  
in a home staging project a lot of  
00:23  
people ask why should I home staged  
00:25  
according to the National Realtors  
00:27  
Association a home that has been  
00:29  
decluttered home staged will sell 30  
00:32  
percent quicker on an average than a  
00:34  
home that hasn't been declared in home  
00:36  
staged more importantly that same home  
00:39  
usually commands 11% more in value than  
00:43  
a house that hasn't been home staged  
00:45  
what that means to you is that if the  
00:47  
house was listed for \$250,000 that's  
00:50  
over \$27,000 it could be available to  
00:53  
the homeowner the question becomes well  
00:56  
how do we make this easy my way mobile  
00:58  
storage we provide a modular system - we

01:01  
can bring the containers directly out to  
01:03  
the hall well in our truck can then  
01:05  
carry anywhere from one to four  
01:07  
containers making it simple if you have  
01:09  
a just a clean out your garage or garage  
01:12  
in a basement you can stay right there  
01:14  
on your driveway once you've had those  
01:16  
items loaded up we take it back to our  
01:18  
indoor climate-controlled facility this  
01:21  
enables you and the realtor to work  
01:22  
together to sell the home fast hey be  
01:25  
where your home a sell actually quicker  
01:28  
than you thought in that case my way  
01:30  
mobile storage has a complete solution  
01:32  
to help you to get to your new home  
01:34
